

Transforming High-Growth Startups into Capital-Efficient, Investor-Ready Companies

MIGASUTO PINNACLE PERFORMANCE™

P O R T F O L I O

Executive Summary

High-growth startups and SMEs often enter the market with visionary ideas but lack the mature financial structures needed to navigate their growth trajectory successfully. Hurdles such as poor cash flow management, gaps in investor readiness, and a lack of scalable financial infrastructure are primary drivers of failure.

The Migasuto Pinnacle Performance™ portfolio is a direct response to these challenges. We provide insight-led, fractional CFO services to a select portfolio of up to 30 UK-based companies per year, equipping them with the discipline and frameworks to achieve sustainable scale and lasting enterprise value. Our mission is to empower founders to build strong fundamentals, secure funding milestones faster, and navigate their entire corporate life cycle with confidence.

The Problem: Financial Barriers for High-Growth Startups & SMEs

Many founders scale without robust financial foundations, burning cash and eroding long-term value. This leads to a difficult reality for even the most promising ventures:

CASH FLOW FAILURE

29% of startups fail due to cash flow issues.

FUNDING BARRIERS

Only 1% of pitch decks successfully secure funding.

STALLED GROWTH

Without capital efficiency and investor trust, growth stalls before the real opportunity is reached.

29%

of startups fail due to cash flow challenges.

1%

of pitch decks successfully secure funding.

The Migasuto Advantage: The Pinnacle 3-Pillar Performance Model™

We've developed a proven framework that prepares founders not only to raise capital but to scale with resilience. Our disciplined, performance-driven approach is built on three pillars:

Operational Excellence:

We implement scalable systems, robust cash controls, and board-ready reporting to create a strong foundation for growth.

Data-Driven Insights

We build the forecasts, valuation models, and strategic dashboards that investors trust, helping you make critical decisions with confidence.

Strategic Corporate Finance

We provide Fractional CFO support for fundraising, investor relations, and M&A readiness, offering crucial expertise for every stage of your journey.

Beyond Fundraising: End-to-End Financial Transformation

Pinnacle is not just about securing your next round—it's about a complete financial transformation. We focus on four key outcomes:

01 Capital Efficiency

Make every £1 work harder and smarter.

03 Investor Readiness

Secure your funding milestones faster and with greater confidence.

02 Scalable Growth

Build resilience, widen margins, and support market expansion.

04 Exit Pathways

Create tangible enterprise value that is attractive to acquirers and IPO markets.

Case Study :Preparing for Seed Funding Success

A promising fintech founder lacked the financial controls and credibility to attract investors. By applying the 3-Pillar Performance Model™, we helped them build financial scenarios, refine their valuation, and launch a targeted investor outreach campaign.

The outcome was transformative: the client secured \$2M in Seed funding in 12 months and grew revenue by 150%. They are now preparing for their Series A round and corporate partnership expansion.

Portfolio Impact

Our model delivers measurable results and a clear return on investment.

£150K+

£150K+ saved versus hiring a full-time CFO.

30/Yr

An exclusive portfolio limited to 30 companies per year.

35%

On average, founders become funding-ready 35% faster.

12 Months

Margins improve within 12 months of implementation.
